TAN CANG WAREHOUSING JOINT STOCK COMPANY

Address: Tan Cang – Cat Lai Terminal, Cat Lai Ward, Thu Duc City, Ho Chi Minh City

FINANCIAL STATEMENTS QUARTER I

For the fiscal year ending December 31, 2025

NOTES TO THE FINANCIAL STATEMENTS

For the first 3 months of the fiscal year ending December 31, 2025

I. OPERATING CHARACTERISTICS

1. Form of ownership

Tan Cang Warehousing Joint Stock Company (hereinafter referred to as "the Company") is a joint stock company.

2. Business sectors

The Company operates in the service sector.

3. Business activities

The Company's main business activities include:

- Customs brokerage services, freight forwarding agency services;
- Shipping agency services, packaging services (excluding pesticide packaging);
- Cargo handling, container transportation, and cargo tallying services;
- Warehousing and storage services in refrigerated warehouses, and shipping agency services.

4. Normal business cycle

The Company's normal business cycle does not exceed 12 months.

5. Company structure

Subsidiaries:

TAN CANG WAREHOUSING JOINT STOCK COMPANY

Address: Tan Cang – Cat Lai Terminal, Cat Lai Ward, Thu Duc City, Ho Chi Minh City

FINANCIAL STATEMENTS QUARTER I

For the fiscal year ending December 31, 2025

Tan Cang Warehousing Depot Joint Stock Company	1295B Nguyen Thi Dinh, Cat Lai Ward, Thu Duc City, Ho Chi Minh City	Loading and unloading of goods; warehousing and storage of goods	36.00%	36.00%	36.00%
--	--	---	--------	--------	--------

6. Statement on comparability of financial information

The comparative figures from the previous year are comparable with the current year's data.

7. Employees

As of the end of the fiscal year, the Company has 450 employees (compared to 452 employees at the beginning of the year).

II. FISCAL YEAR AND ACCOUNTING CURRENCY

1. Fiscal year

The Company's fiscal year begins on January 1 and ends on December 31 of each calendar year.

2. Accounting currency

The accounting currency used is the Vietnamese Dong (VND), as most transactions are conducted in VND.

III. APPLICABLE ACCOUNTING STANDARDS AND REGULATIONS

1. Applied Accounting Regulations

The Company applies the Vietnamese Accounting Standards and the Vietnamese Corporate Accounting Regime issued under Circular No. 200/2014/TT-BTC dated December 22, 2014, along with other guiding circulars issued by the Ministry of Finance to prepare and present financial statements.

2. Statement of Compliance with Accounting Standards and Regulations

The Board of Management ensures compliance with the requirements of the Vietnamese Accounting Standards, the Vietnamese Corporate Accounting Regime issued under Circular No. 200/2014/TT-BTC, and other guiding circulars of the Ministry of Finance in preparing and presenting financial statements.

IV. APPLIED ACCOUNTING POLICIES

1. Basis of preparation of financial statements

The financial statements are prepared on an accrual basis (except for cash flow-related information).

2. Foreign currency transactions

Transactions in foreign currencies are converted into VND using the exchange rate at the transaction date. Balances of monetary items denominated in foreign currencies as of the fiscal year-end are revalued using the exchange rate on that date.

Exchange differences arising from foreign currency transactions during the year are recorded in financial income or financial expenses. Exchange differences from the revaluation of foreign currency-denominated monetary items at the fiscal year-end, after offsetting increases and decreases, are recorded in financial income or financial expenses.

The exchange rates applied for transactions in foreign currencies are as follows:

- For receivables: The buying rate of the commercial bank where the Company designates customers to make payments on the transaction date.

TAN CANG WAREHOUSING JOINT STOCK COMPANY

Address: Tan Cang – Cat Lai Terminal, Cat Lai Ward, Thu Duc City, Ho Chi Minh City

FINANCIAL STATEMENTS QUARTER I

For the fiscal year ending December 31, 2025

- For payables: The selling rate of the commercial bank where the Company intends to transact on the transaction date.
- For purchases of assets or expenses paid immediately in foreign currencies: The buying rate of the commercial bank where the Company makes the payment.

The exchange rate used for revaluing the balances of foreign currency-denominated monetary items as of the fiscal year-end is determined as follows:

- For foreign currency deposits in banks: The buying rate of the bank where the Company holds the foreign currency account.
- For monetary items classified as other assets: The buying rate of Military Commercial Joint Stock Bank (MB Bank) – An Phu Branch, with which the Company frequently transacts.
- For monetary items classified as payables: The selling rate of Military Commercial Joint Stock Bank – An Phu Branch.

3. Cash and cash equivalents

Cash includes cash on hand and demand deposits at banks. Cash equivalents are short-term investments with original maturities of no more than three months from the investment date, which are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

4. Financial investments

Held-to-maturity investments

Investments are classified as held-to-maturity when the Company has the intention and ability to hold them until maturity. The Company's held-to-maturity investments only include term deposits at banks with original maturities exceeding three months. Interest income from these deposits is recognized in the income statement on an accrual basis.

Investments in subsidiaries and associates

Subsidiaries

Subsidiaries are entities controlled by the Company. Control exists when the Company has the power to govern the financial and operating policies of the investee to obtain benefits from its activities.

Associates

Associates are entities over which the Company has significant influence but no control over their financial and operating policies. Significant influence is evidenced by the power to participate in the financial and operating policy decisions of the investee but not control over those policies.

Initial recognition

Investments in subsidiaries and associates are initially recognized at cost, which includes the purchase price or capital contributions plus directly attributable costs. For investments made using non-monetary assets, the cost is recorded at the fair value of the non-monetary assets at the transaction date.

Dividends and profits from previous years earned before the acquisition of the investment are deducted from the carrying amount of the investment. Dividends and profits from periods after the acquisition are recognized as income. Dividends received in the form of shares are only monitored by the increased number of shares and are not recognized as the value of the shares received.

Provision for investment losses

Provision for losses on investments in subsidiaries and associates is made when the subsidiaries incur losses. The provision amount is determined as the difference between the actual investment capital of

TAN CANG WAREHOUSING JOINT STOCK COMPANY

Address: Tan Cang – Cat Lai Terminal, Cat Lai Ward, Thu Duc City, Ho Chi Minh City

FINANCIAL STATEMENTS QUARTER I

For the fiscal year ending December 31, 2025

the parties in the subsidiaries and associates and the actual equity as of the end of the fiscal year, multiplied by the Company's actual ownership percentage in the subsidiaries and associates. If the subsidiaries or associates are subject to consolidated financial statements, the basis for determining the provision for losses is the consolidated financial statements.

Increases or decreases in the provision for losses on investments in subsidiaries and associates, which need to be made as of the fiscal year-end, are recognized in financial expenses.

5. Receivables

Receivables are presented at book value, net of provisions for doubtful debts.

Receivables are classified into trade receivables and other receivables based on the following principles:

- Trade receivables: Reflect commercial receivables arising from transactions of buying and selling between the Company and independent entities.
- Other receivables: Reflect non-commercial receivables unrelated to buying and selling transactions.

Provision for doubtful debts is established for each doubtful debt after offsetting against payables (if any). The provision level is based on the age of the debt overdue or the expected loss level that may occur, specifically as follows:

- For overdue receivables:
 - 30% of the value for receivables overdue from 6 months to less than 1 year.
 - 50% of the value for receivables overdue from 1 year to less than 2 years.
 - 70% of the value for receivables overdue from 2 years to less than 3 years.
 - 100% of the value for receivables overdue from 3 years or more.
- For receivables that are not overdue but are unlikely to be recovered: based on the expected loss level to establish the provision.

Increases or decreases in the balance of provisions for doubtful receivables, which need to be made as of the fiscal year-end, are recognized in administrative expenses.

6. Inventories

Inventories are recorded at the lower of cost and net realizable value.

The cost of inventories, including raw materials, consists of purchase costs and directly attributable expenses incurred to bring the inventories to their current location and condition.

The cost of inventories issued is determined using the weighted average method and accounted for using the perpetual inventory system.

The Company's inventories primarily include materials and spare parts reserved for the replacement and repair of machinery, equipment, and transport vehicles, which are stored in good condition and do not require provisioning for impairment.

7. Prepaid expenses

Prepaid expenses include actual expenses that have been incurred but are related to the operating results of multiple fiscal years. The Company's prepaid expenses mainly consist of tools and equipment, insurance expenses, and fixed asset repair expenses. These prepaid expenses are allocated over the prepaid period or the period during which the corresponding economic benefits generated by these expenses are realized.

Tools and instruments:

TAN CANG WAREHOUSING JOINT STOCK COMPANY

Address: Tan Cang – Cat Lai Terminal, Cat Lai Ward, Thu Duc City, Ho Chi Minh City

FINANCIAL STATEMENTS QUARTER I

For the fiscal year ending December 31, 2025

Tools and instruments put into use are allocated to expenses on a straight-line basis over a period not exceeding three years.

Insurance expenses:

Insurance expenses include life insurance, health insurance, fire insurance, and vehicle insurance costs, which are allocated based on the time indicated on the insurance certificate.

Fixed asset repair expenses:

Major fixed asset repair costs incurred once and of significant value are allocated to expenses on a straight-line basis over a period not exceeding three years.

8. Operating Lease Assets

An asset lease is classified as an operating lease if most of the risks and benefits associated with the ownership of the asset are retained by the lessor. Operating lease expenses are recognized on a straight-line basis over the lease term, regardless of the payment schedule.

9. Tangible Fixed Assets

Tangible fixed assets are presented at cost less accumulated depreciation. The cost of tangible fixed assets includes all expenses incurred by the Company to acquire the fixed assets up to the point they are ready for use. Subsequent expenditures are added to the cost of fixed assets only if it is certain that such expenditures will increase the future economic benefits derived from the use of the assets. Expenditures that do not meet this condition are recognized as operating expenses in the year they are incurred.

When tangible fixed assets are sold or disposed of, their cost and accumulated depreciation are written off, and any gain or loss arising from the disposal is recognized in income or expenses for the year.

Tangible fixed assets are depreciated using the straight-line method over their estimated useful lives. The depreciation periods for various types of tangible fixed assets are as follows:

Type of Fixed Asset	Useful Life (Years)
Buildings and structures	5 - 25
Machinery and equipment	3 - 10
Transportation vehicles	6 - 10
Management tools and devices	3 - 10
Other fixed assets	3 - 10

10. Intangible fixed assets

Intangible fixed assets are presented at cost less accumulated amortization.

The cost of intangible fixed assets includes all expenses incurred by the Company to acquire the assets up to the point they are ready for use. Expenses related to intangible fixed assets incurred after initial recognition are recorded as operating expenses in the year unless such expenses are associated with a specific intangible fixed asset and increase the economic benefits derived from that asset.

When intangible fixed assets are sold or disposed of, their cost and accumulated amortization are written off, and any gain or loss arising from the disposal is recognized in income or expenses for the year.

The Company's intangible fixed assets consist of computer software. Costs related to computer software that are not integral to the associated hardware are capitalized. The cost of computer software includes all expenses incurred by the Company up to the point the software is ready for use. Computer software is amortized using the straight-line method over 3 to 5 years.

11. Construction in progress

TAN CANG WAREHOUSING JOINT STOCK COMPANY

Address: Tan Cang – Cat Lai Terminal, Cat Lai Ward, Thu Duc City, Ho Chi Minh City

FINANCIAL STATEMENTS QUARTER I

For the fiscal year ending December 31, 2025

Construction in progress includes costs directly (including related interest expenses in accordance with the Company's accounting policy) related to assets under construction, machinery, and equipment under installation for production, leasing, or management purposes, as well as costs associated with ongoing repairs of fixed assets. These assets are recognized at historical cost and are not depreciated.

12. Payables and accrued expenses

Payables and accrued expenses are recognized as amounts payable in the future for goods and services already received. Accrued expenses are recognized based on reasonable estimates of the amounts payable.

Payables are classified into trade payables, accrued expenses, and other payables according to the following principles:

- Trade payables: Reflect amounts payable arising from transactions of purchasing goods, services, and assets from independent entities.
- Accrued expenses: Reflect amounts payable for goods or services received from sellers or provided to buyers but not yet paid due to the absence of invoices or incomplete documentation. They also include amounts payable to employees for leave and production/business expenses accrued.
- Other payables: Reflect non-commercial payables unrelated to the transaction of buying, selling, or providing goods and services.

Payables and accrued expenses are classified as current or non-current on the balance sheet based on their remaining terms as of the fiscal year-end.

13. Owner's equity

Owner's contributed capital

Recorded based on the actual capital contributions of shareholders.

14. Profit distribution

After corporate income tax, profits are distributed to shareholders after making allocations to funds as stipulated in the Company's charter and legal regulations, subject to approval by the General Meeting of Shareholders.

The distribution of profits to shareholders considers non-monetary items within undistributed after-tax profits that may impact cash flow and dividend payment capacity, such as gains from revaluation of contributed assets, revaluation of monetary items, and other non-monetary items.

Dividends are recognized as payables when approved by the General Meeting of Shareholders.

15. Revenue recognition

Service revenue

Recognized when the following conditions are met:

- Revenue is reliably measurable. When the contract stipulates that the buyer has the right to return the service purchased under specific conditions, revenue is recognized only when these conditions no longer exist, and the buyer no longer has the right to return the service provided.
- The Company has or will receive economic benefits from the transaction.
- The portion of work completed at the reporting date can be determined.
- Costs incurred for the transaction and costs to complete the transaction can be measured reliably.

For services rendered over multiple periods, revenue is recognized based on the completed portion of the work as of the fiscal year-end.

TAN CANG WAREHOUSING JOINT STOCK COMPANY

Address: Tan Cang – Cat Lai Terminal, Cat Lai Ward, Thu Duc City, Ho Chi Minh City

FINANCIAL STATEMENTS QUARTER I

For the fiscal year ending December 31, 2025

Interest income:

Recognized on a time-proportion basis using the actual interest rate for each period.

Dividends received:

Recognized when the Company is entitled to receive dividends. Dividends received in the form of shares are only tracked as an increase in the number of shares, without recognizing the value of the shares received.

16. Borrowing costs

Borrowing costs include interest and other expenses directly attributable to borrowing. Borrowing costs are recognized as expenses when incurred.

17. Expenses

Expenses are reductions in economic benefits and are recognized when incurred or reasonably expected to occur in the future, regardless of whether payment has been made.

Expenses and the revenue they generate must be recognized simultaneously based on the matching principle. In cases where the matching principle conflicts with the prudence principle, expenses are recognized based on the substance of the transaction and accounting standards to ensure a true and fair representation of transactions.

18. Corporate income tax

Corporate income tax expenses include current income tax and deferred income tax.

Current Income Tax

Current income tax is calculated based on taxable income. Taxable income differs from accounting profit due to adjustments for temporary differences between tax and accounting, non-deductible expenses, non-taxable income, and loss carryforwards.

Deferred Income Tax

Deferred income tax refers to corporate income tax payable or recoverable due to temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and their tax bases. Deferred income tax liabilities are recognized for all taxable temporary differences. Deferred income tax assets are recognized only to the extent that it is probable that taxable profit will be available in the future against which these deductible temporary differences can be utilized.

The carrying amount of deferred income tax assets is reviewed at the end of the fiscal year and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow for the use of part or all of the deferred income tax assets. Unrecognized deferred income tax assets are also reviewed at the end of the fiscal year and recognized when it becomes probable that sufficient taxable profit will be available to utilize the unrecognized deferred income tax assets.

Deferred income tax assets and liabilities are determined based on the tax rates expected to apply in the year when the assets are realized or the liabilities are settled, based on tax rates enacted or substantively enacted as of the fiscal year-end. Deferred income tax is recognized in the income statement, except for items directly related to equity, where the tax is also recognized directly in equity.

Offsetting Deferred Income Tax Assets and Liabilities

Deferred income tax assets and liabilities are offset when:

- The Company has a legally enforceable right to offset current income tax assets against current income tax liabilities; and

TAN CANG WAREHOUSING JOINT STOCK COMPANY

Address: Tan Cang – Cat Lai Terminal, Cat Lai Ward, Thu Duc City, Ho Chi Minh City

FINANCIAL STATEMENTS QUARTER I

For the fiscal year ending December 31, 2025

- The deferred income tax assets and liabilities relate to corporate income tax managed by the same tax authority:
 - For the same taxable entity; or
 - The Company intends to settle current income tax liabilities and assets on a net basis or to realize the assets and settle the liabilities simultaneously in future periods when significant amounts of deferred income tax liabilities or assets are settled or realized.

19. Related parties

Related parties are considered those where one party has the ability to control or significantly influence the other party in making financial and operating decisions. Parties are also considered related if they are under common control or significant joint influence.

When evaluating relationships between related parties, the substance of the relationship takes precedence over the legal form.

20. Segment reporting

Business segments are identifiable components engaged in producing or providing products and services and have risks and economic benefits different from other business segments.

Geographical segments are identifiable components engaged in producing or providing products and services within a specific economic environment and have risks and economic benefits different from components operating in other economic environments.

Segment information is prepared and presented in line with the accounting policies applied in the preparation and presentation of the Company's financial statements.

The Company only operates in the field of providing loading and unloading services, implemented in the Cat Lai Terminal area, within the territory of Vietnam. Therefore, the Company does not present segment reports by business segments and by geographical segments.

V. ADDITIONAL INFORMATION FOR ITEMS PRESENTED IN THE BALANCE SHEET

1. Cash and cash equivalents

	Ending balance	Beginning balance
Cash on hand	600,882,750	485,384,854

Depreciation during the period		(1,730,707,088)	(1,730,707,088)
Ending balance	32,544,087,875	20,211,687,983	12,332,399,892

Additionally, some intangible assets that have been fully amortized but are still in use have an original cost of VND 9,161,846,930.

11. Deferred income tax assets

11a. Deferred income tax assets recognized

Deferred income tax assets related to deductible temporary differences are expenses without invoices or documents. Details arising during the year are as follows:

	Current year	Previous year
Beginning balance	975,155,136	732,080,514
Incurred during the year		
Reversed during the year		
Ending balance	975,155,136	732,080,514

The corporate income tax rate used to determine the value of deferred income tax assets is 20%.

11b. Unrecognized Deferred Income Tax Assets

The company has not recognized deferred income tax assets for temporary differences that can be deducted, such as exchange rate differences arising from the revaluation of foreign currency-denominated monetary items due to their small amounts.

12. Short-Term Accounts Payable to Suppliers

Value Added Tax (VAT)

The company applies the VAT deduction method. The VAT rates are as follows:

- Warehousing services, equipment leasing, and associated services: 8%; 10%
- Office rental and land use rights: 10%

Corporate Income Tax

The company is required to pay corporate income tax on taxable income at a rate of 20% (same rate as last year).

Corporate Income Tax Payable is estimated as follows:

	Current year	Previous year
Total accounting profit before tax	33,940,500,861	34,840,905,482
Taxable income	33,940,500,861	34,840,905,482
Corporate income tax rate	20%	20%
Corporate income tax payable	6,788,100,173	6,968,181,097

The determination of corporate income tax payable by the company is based on the current tax regulations. However, these regulations may change over time, and the interpretation of tax rules for various types of transactions may vary. Therefore, the tax amount presented in the financial statements may change when reviewed by the tax authorities.

Other Taxes

The Company declares and pays taxes in accordance with the regulations.
